

## Shipboard Information

### Responsible Serving of Alcohol

Passengers under 18 years of age will not be served alcoholic beverages nor are they to consume alcoholic beverages. Please understand that you may be requested to show identification indicating date of birth.

### Environmental Issues

We are all aware of our environmental responsibilities and are committed to reducing the impact we have on the environment and would ask that, when you go ashore you dispose of your waste using local waste bins. If none are available, you are welcome to bring it back to the ship with you, placing it in one of the waste bins at the gangway. We will then dispose of it on your behalf in an appropriate manner.

### Toilet Blockage

Azura's toilet system operates under vacuum extraction using a series of very narrow pipes. Human waste and toilet paper are the only items to be flushed down the toilets. Do not dispose of items such as wet wipes, facial tissues, hand towels, cotton wool or sanitary items into the lavatories as this will cause blockages within the system that will affect public lavatories and large numbers of cabins.
